1. Introduction

Openness and transparency of institutions to the public is one of the main factors that affects the increase of accountability of institutions but also on the better performance of the public administration itself. The current system of public consultations established in 2016, is already in a phase of stability of the process of policy making and drafting legislation in the Government of the Republic of Kosovo. This process is being led and coordinated by the Office of Good Governance / Office of the Prime Minister and is being supported by the coordinators for public consultation in the Office of the Prime Minister, those in the Line Ministries to continue with the coordinators at the local level. As a result, meeting of the standards as defined by the Regulation no.05/2016 on minimum standards for public consultation, has already become part of the daily work of the government institutions.

Government of the Republic of Kosovo through the Office for Good Governance within the Office of the Prime Minister has managed together with ministries and municipalities to publish and share with NGOs and the public the documents that have been drafted and submitted for approval to the government and within the ministries on the online platform <https://konsultimet.rks-gov.net/>. The platform has been a window where the public and NGOs have been provided with access for inclusion, information and opportunities to contribute through commenting and recommendations on policies and legislation drafted by public institutions. Crisis with the Covid pandemic¹⁹ during 2021, constitution of the Government until March 2021, have definitely slowed down the policy-making process and consequently the public consultation, especially at the beginning of the year, including all steps and means for involvement of CSOs and the public in policy-making, especially their approval in government.

The Office of Good Governance/Office of the Prime Minister together with the coordinators have continued to provide with their maximum capacity space for the public to be involved in the public consultation process. Through the online platform, Office for Good Governance / Office of the Prime Minister together with the ministries have managed to publish and share with the public the documents planned to be drafted and continuously forwarded for approval by the government and ministries. In addition, Office for Good Governance / Office of the Prime Minister as the leader and coordinator of the public consultation process in cooperation with all line ministries through the coordinators for consultations in the ministry involved in the policy and legislation development process has continuously worked in monitoring and implementation of standards for public consultation.

During 2021, Office for Good Governance/Office of the Prime Minister has advanced the modalities in the consultation platform and through the platform, website and social networks, has developed and continues to develop an information campaign for the Online Platform for Public Consultation and Minimum Standards for inclusion of citizens in policy-making and decision-making. However, we aim to raise the awareness of institutions and the public on the importance of effective use of the Online Platform for Public Consultation, on strengthening, sustainability and stability of the public

consultation system and most importantly the involvement of civil society in policy making and decision making.

Monitoring the implementation of the consultation process is also part of the Government Strategy for Cooperation with Civil Society 2019-2023, as well as part of the EU assessment through the agreement of the Government and the European Commission for direct budget support.

In addition to the extension to the central level of the government, the system of public consultations has been extended to all municipalities both in regulatory terms and in creating the means and conditions for its implementation, ie. all municipalities are an integral part of the public consultation platform. However, it should be noted that the local level is not part of the scope of this report this year, because only few municipalities have begun to publish documents for public consultation on the consultation platform and the appointment of coordinators for consultation at the local level is still in process. There are more than twenty coordinators so far who have been appointed by the local level, trainings and capacity building have been conducted for coordinators and officials at the local level and consequently the Municipality of Rahovec, Municipality of Malisheva, Municipality of Mitrovica, Municipality of Peja and several other municipalities have already started publishing documents for public consultation on the online platform.

2. Executive Summary

In accordance with Regulation no. 05/2016 on Minimum Standards for Public Consultation, Office of Good Governance/Office of the Prime Minister leads and is responsible for drafting the Annual Report on Public Consultations developed by all ministries and Office of the Prime Minister. In accordance with the requirements of the Regulation, Office for Good Governance / Office of the Prime Minister, in cooperation with all ministries and other institutions involved in the process of developing policies and legislation, this year has prepared the annual report on public consultation.

Annual Report for the year 2021 includes all documents that have been published on the platform for public consultation and for which the consultation started on 01.01.2021 and is closed on 31.12.2021. The report aims to present the work done during 2021 in the implementation of minimum standards for the public consultation process by the Government and the line ministries. The report presents details and statistics on meeting all standards from the planning, initiation and process of drafting documents, flow of consultations, drafting the consultation document, use of consultation methods including the platform, public participation in providing their contributions, status of comments etc.

The report presents in detail the following categories of information:

Total number of drafted and consulted documents - From the beginning of 2021 to the end of 2021, it is reported that 220 documents have been drafted. Of these 220 documents, there are: 19 concept documents, 70 draft laws, 06 strategies, 02 programs, 04 action plans, 31 draft regulations, 86 administrative instructions and 02 other documents (a draft guideline of the Office of the Prime Minister and a draft statute of the Ministry of Health).

Meeting the standards-Of all the documents published on the platform, 156 of them or 69.6% and 68 documents or 30.4% of them do not meet the minimum standards for public consultation.

Meeting the criteria of SBS- indicators- Agreement on Direct Budget Support under IPA for indicator II "Effective communication with the public, public consultation and participation of stakeholders" has determined additional obligations where according to this agreement specifically indicator II, this year at least 75% of draft strategies, policies / programs, concept papers and primary laws adopted by the government should be subject to public consultation in accordance with the Regulation on Minimum Standards for Public Consultation. Therefore, the rating for the SBS indicators for the completion of indicator II for public consultations for 2021 was 75%. It is worth mentioning that within the framework of the conditions of the SBS indicator during 2021, a total of 110 documents were consulted. 77.27% of them have met the standards while 22.73% have not met the standards.

Participation in the consultation process and comments- It was reported that during the public consultation process a total of 2285 participants have participated. A total of 2163 comments were made from these participants either through the platform, meetings, working groups or even in writing. It is estimated that 1017 comments were fully accepted by the drafters, 469 comments were partially accepted and 677 comments were rejected or not accepted by the drafting institutions.

Direct comments on the online platform - The number of comments we have received directly on the platform during 2021 is 73, so out of a total of 220 documents that have been published on the platform by the public and OJTs are 73 comments directly on the platform. Of these, 47 documents have been commented, with a total of 73 comments, while only from July to December 2021 there are 33 documents that have been commented and which have 54 comments.

Used consultation methods -During the 2021, 220 documents were published on the public consultation platform. Most of the documents that were consulted on the platform were also consulted through official communication and through working meetings, in writing, etc.

3. Methodology for reporting and monitoring the implementation of standards

Even in 2021, the annual reporting on the flow of the public consultations is done according to the reporting methodology for the regulation on public consultations. Several sources of information were used to prepare the report:

- All data and information provided by the coordinators of public consultations by each ministry and the Office of the Prime Minister.
- Data published and updated by the public consultation platform.
- Other data deriving from the activities of the Office for Good Governance / Office of the Prime Minister and projects that support the Government in developing and advancing the public consultation.

The evaluation criteria according to the Regulation on minimum standards are:

- Each document consulted should have a consultation plan.
- Consultation document together with the basic document which is consulted must be published on the electronic platform for public consultation.
- Consultation deadline should be at least 15 working days.
- Final report of the consulted document and the final version of the document to be published together with the final report.

Request of the Office for Good Governance / Office of the Prime Minister for reporting by the ministries sent on 22 February 2021 was answered by 15 ministries out of total of 15 and the Office of the Prime Minister.

Ministry of Communities and Return MCR this year did not have a single document or legal act to be drafted and consulted. The missing data from potential coordinators' reports were obtained directly from the platform. In addition to these documents in the platform for public consultation we have documents published by the Municipality of Rahovec; Malisheva, Peja, Mitrovica, etc. but are not included in this report.

Reporting by coordinators is done through forms designed to collect information for drafting the annual report according to the Regulation and Methodology of Monitoring and Reporting for the implementation of minimum standards approved by the OPM in 2017.

Also as some of the information reported by the ministries did not match with those found on the platform, so the additional information was obtained from the electronic platform for public consultation.

**Table 1. Summary of types of documents published by institutions
Open consultation during the period - Date: 01.01.2021 - 31.12.2021**

- Ministria e Zhvillimit Rajonal

Figure 1. Graphic presentation of statistics according to central institutions

4. Online platform for public consultations /<https://konsultimet.rks-gov.net/>

Office for Good Governance in the Office of the Prime Minister has worked on updating the data for institutions and coordinators on the online platform for public consultation during 2021 throughout the pandemic as well as on changing the decisions of the Assembly for government institutions, correcting the platform and its maintenance with new data.

OGG/OPM has continued to work on building a public consultation system at the local level and to accommodate requests for the involvement of municipalities in the consultation process. In the platform during 2021, new modules have been added for each municipality, and a statistics generation system has been built for the local level. There are more than 20 coordinators from the local level who are part of the system of public involvement in policy making and decision making.

The online platform for public consultation has worked on updating the data for institutions and coordinators all the time for government institutions, on correcting the platform and maintaining it with new data. During this time we have focused on the implementation of minimum standards for public consultation and we have managed to advance the Public Consultation Platform <https://konsultimet.rks-gov.net> by adding new functionalities and improving access for citizens and civil society to participate in consultative processes related to documents drafted by central and local institutions. We have provided a clear picture of the performance of institutions for the involvement of citizens and civil society in policy-making.

5. Cooperation and capacity building for public officials for the public consultation

Government of the Republic of Kosovo has given priority to cooperation with civil society, strengthening the dialogue with civil society organizations with full involvement, its participation in the development of policies and legislation and not only that, but also in identifying priorities and challenges for the better development of society in Kosovo.

The level of cooperation with non-governmental organizations, forums, NGO coalitions and those who work directly with vulnerable groups of society has increased and we can point out concrete examples, such as the coalition for the protection of children, the forum of people with disabilities, women's group network, etc. At the same time there is a much greater representation and participation of civil society representatives in institutional mechanisms in various fields.

Capacity building for public officials for public consultation through the Kosovo Institute for Public Administration (KIPA) together with the team of Certified Trainers and OGG/OPM have continued and continue to develop training both in teams and in offices and institutions responsible for consultations. During 2021, employees of central and local level institutions have been invited to participate in the online training "Public consultation process". It is worth mentioning the trainings that have been organized for 2 (two) groups of participants on 26 and 27 April 2021, also on 29 and 30 April 2021. Organization of online trainings has continued through KIPA with Certified Trainers on 17 and 18 May 2021 - The First Group and the Second Group on 24 and 25 May 2021.

6. Coordination and smooth running of the consultation process under the Agreement on Direct Budget Support within IPA

During 2021 we have focused on the implementation of minimum standards for public consultation and we have managed to advance the Public Consultation Platform (<https://konsultimet.rks-gov.net>;) by adding new functionalities and improving access for citizens and society civil society to participate in the consultation process regarding the documents drafted by public institutions. We have provided a clear picture of the performance of institutions for the involvement of citizens and civil society in policy-making.

Agreement on Direct Budget Support within IPA for indicator II "Effective communication with the public, public consultation and participation of stakeholders" has defined additional obligations where according to this agreement specifically indicator II, this year at least 75% of draft strategies, policies / programs, concept papers and primary laws adopted by the government should be subject to public consultation in accordance with the Regulation on Minimum Standards for Public Consultation. The estimate for the SBS indicators for the completion of indicator II for public consultations for 2021 has been 75%. It is worth mentioning that within the framework of the conditions of the SBS indicator during 2021, a total of 110 documents were consulted. 77.27% of them have met the standards while 22.73% have not met the standards. Documents that were consulted through the platform and that were part of SBS are: 83 draft laws, 13 concept documents, 07 programs and 05 strategies. Regarding the laws of these 83, 68 of them have met the standards while 15 did not meet the standards, from concept papers 09 met the standards while 04 did not, 03 programs met the standards while 04 did not meet the standards. While of these 05 strategies all have met the standards.

Formula used to calculate the achievement of this indicator (%):

Office for Good Governance / Office of the Prime Minister has prepared in advance the report on the implementation of Indicator II "Effective public communication, public consultation and stakeholder participation" according to the formula determined in the following indicator:

$$\frac{\text{Number of draft policies and legislative proposals * those which have been consulted with the public}}{\text{Total number of draft policies and legislative proposals approved by the government}} \times 100$$

* 'Draft legislative policies and proposals' refers to draft sector strategies / policies, draft concept papers and primary draft laws, which are legally required to be subject to public consultation.

Calculation of Indicators of Sectoral Budget Support by EU			
Type of initiative	Does not meet the standards	Meets the standards	Total
Concept document	4	9	13
Program	4	3	7
Strategy	2	5	7
Draft law	15	68	83
Total	25	85	110
Percentage of indicators	22.73%	77.27%	

Agreement on Direct Budget Support within IPA for indicator II "Effective public communication, public consultation and participation of stakeholders" has determined additional obligations where according to this agreement specifically indicator II, this year at least 75% of draft strategies, policies / programs, concept papers and primary laws adopted by the government should be subject to public consultation in accordance with the Regulation on Minimum Standards for Public Consultation.

What should be noted is that of these 110 documents approved by the government during 2021 in the Government of the Republic of Kosovo, 48 of them were consulted during 2021, while 34 of them were consulted during 2020 (due to lack of the government) which meet the standards ie. 82 documents. While 18 documents approved during 2021 have been consulted before, ie before 2021 and meet the standards. Of these 110 documents, 09 of them were approved in 2021 and do not meet the standards, so they have not been consulted with the public.

If we take into account only the documents that were approved in 2021 and consulted during 2021 and 2020, then there are a total of 82 documents, where 75.22% meet the criteria set by the indicator formula and 24.88% do not meet the criteria. Internal coordination and cooperation within central and local institutions is seen and assessed as a challenge in terms of the smooth running of the public consultation process.

So, in this category or subject of calculating the indicator according to the formula are 110 documents which have been approved by the government during 2021. According to the request and obligations set by the indicator formula of these 110 documents that were approved by the government during 2021, 77 or 27% of the approved documents have met the standards according to the Regulation on minimum standards for public consultation, while 22.73% have not met the standards.

What should be noted is that of these 110 approved by the government during 2021 in the Government of the Republic of Kosovo, 48 of them were consulted during 2021, while 34 of them were consulted during 2020 (due to the lack of the government) which meet the standards i.e. 82 documents. While 18 documents approved during 2021 have been consulted before 2021 and they meet the standards.

In order to further improve the approach, better inter-institutional coordination of the consultation process and the online public consultation platform Office for Good Governance / Office of the Prime Minister with the support of the OSCE, have issued “The framework for improving the implementation of minimum standards for public consultation for the period 2021 - 2025”. Office for Good Governance / Office of the Prime Minister, in a joint roundtable with civil society and coordination structures of public consultation at central and local level, has launched the "Framework for improving the implementation of minimum standards for public consultation for the period 2021 - 2025 ". From this framework, recommendations have been drawn on how institutions should improve the implementation of minimum standards for the full involvement of the public in its work.

OGG / OPM in cooperation with KIPA have realized trainings for civil servants from the central and local level for public consultations and the online platform for public involvement in policy making. In this training was introduced the system and methodology for public consultation, regulation, the platform and monitoring and reporting on the public consultation flow. Office for Good Governance / Office of the Prime Minister is continuing with the information campaign for the Public Consultation Platform. The Guideline and the promotional video for using the Online Platform for Public Consultation are being shared not only through the platform, but also through social networks and publications on daily portals.

7. Total number of draft documents

During the period January-December 2021, the Government of the Republic of Kosovo has finalized the consultation for 220 documents which fall into the category of documents that according to the Regulation their drafters are obliged to consult with the public (figure 4). Of these documents 220 have been published on the consultation platform.

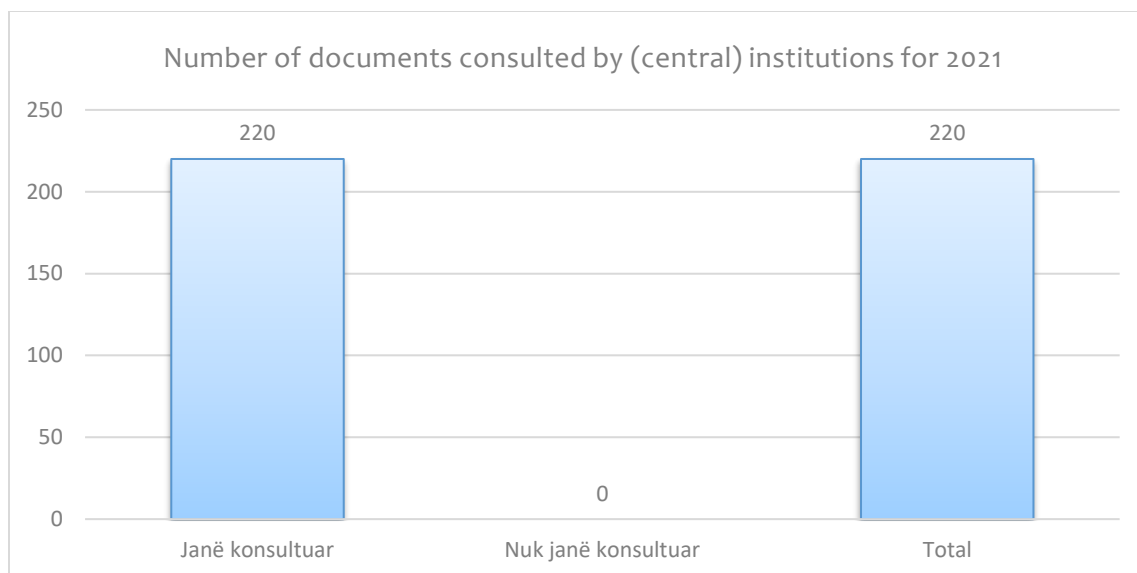

Figure 2. Number of documents consulted and those not consulted during 2021

8. Degree of meeting the minimum standards

The number of documents which have undergone public consultation is almost 70%. Meeting the minimum standards of the public consultation process expressed in percentage during the year 2021 is 69.64 of documents that meet the standards and 30.36% do not meet the consultation standards. The largest number of documents which were drafted during 2021 belong to the category of bylaws. From the beginning of 2021 until the end of 2021, it is reported that 220 documents have been drafted, which have been for public consultation on the online platform. Among them are: 19 concept documents, 70 draft laws, 04 action plans, 31 draft regulations, 86 administrative instructions, 06 strategies, 02 programs and 02 other documents.

Table 2: Summary of types of documents published according to the publication of final reports - Date: 01.01.2021-31.12.2021

Summary of types of documents published according to the publication of final reports - Date: 01.01.2021-31.12.2021						
Institution	With report	final	No report	final	Total	Percentage in the report (With report / Without report)
Ministry of Agriculture, Forestry and Rural Development	31		6		37	83.78%
Ministry of Industry, Entrepreneurship and Trade	26		0		26	100.00%

Ministry of Environment, Spatial Planning and Infrastructure	20	8	28	71.43%

Ministry of Education, Science, Technology and Innovation	11	4	15	73.33%
Ministry of Justice	9	2	11	81.82%
Ministry of Local Government Administration	9	0	9	100.00%
Ministry of Economy	7	1	8	87.50%
Ministry of Culture, Youth and Sports	7	1	8	87.50%
Ministry of Finance, Labor and Transfers	6	12	18	33.33%
Office of the Prime Minister	6	3	9	66.67%
Ministry of Labor and Social Welfare [until 22.03.2021]	5	0	5	100.00%
Ministry of Health	3	4	7	42.86%
Ministry of Internal Affairs	2	27	29	6.90%
TOTAL	156	68	224	
In percentage	69.64%	30.36%		

- Ministries that have fully met the standards are: Ministry of Defense, Ministry of Local Government, Ministry of Industry, Entrepreneurship and Trade, etc.
- Ministries that did not have any documents for public consultation during 2021 were the Ministry of Communities and Returns.

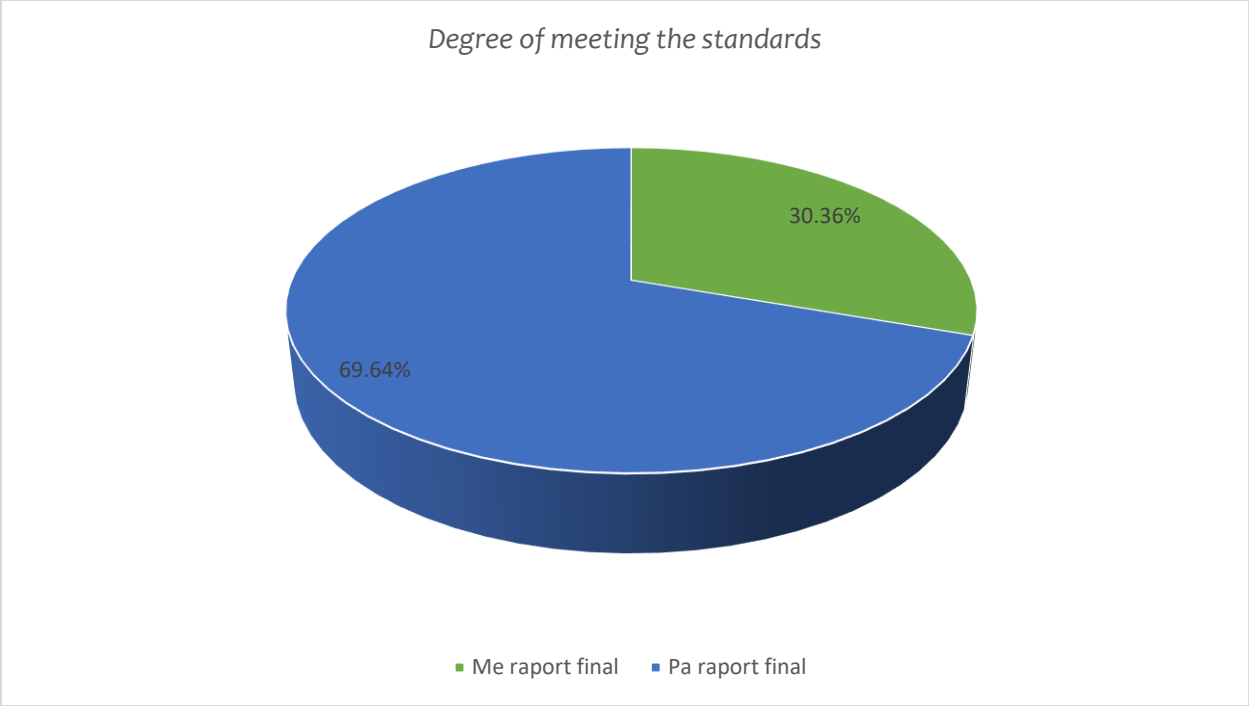

Figure 4: Degree of meeting the minimum standards for documents published according to institutions for 2021

09. Methods used during the consultation process

According to the information reported by the line ministries and the Office of the Prime Minister, as well as those issued by the Electronic Platform of Public Consultations, 220 documents were published during 2021. In addition to publishing on the platform, it was reported that during the public consultation process a total of 2285 participants have participated. A total of 2163 comments were made by these participants either through the platform, meetings, working groups or in writing.

Used consultation methods - During 2021, 220 documents were published on the public consultation platform. Most of the documents that were consulted on the platform were also consulted through official communication and through working meetings, in writing, etc.

10. Number and status of comments

During 2021, 220 documents were published on the public consultation platform. Of these 220 documents, 173 documents or 78.64% according to the reports have received an input or have been commented by the public through the platform and other forms of consultation. While for 47 documents or 21.36% a total of 2163 comments were made either through meetings, working groups or even in writing. It is estimated that 1017 comments were fully accepted by the drafters, 469

comments were partially accepted and 677 comments were rejected or not accepted by the drafting institutions.

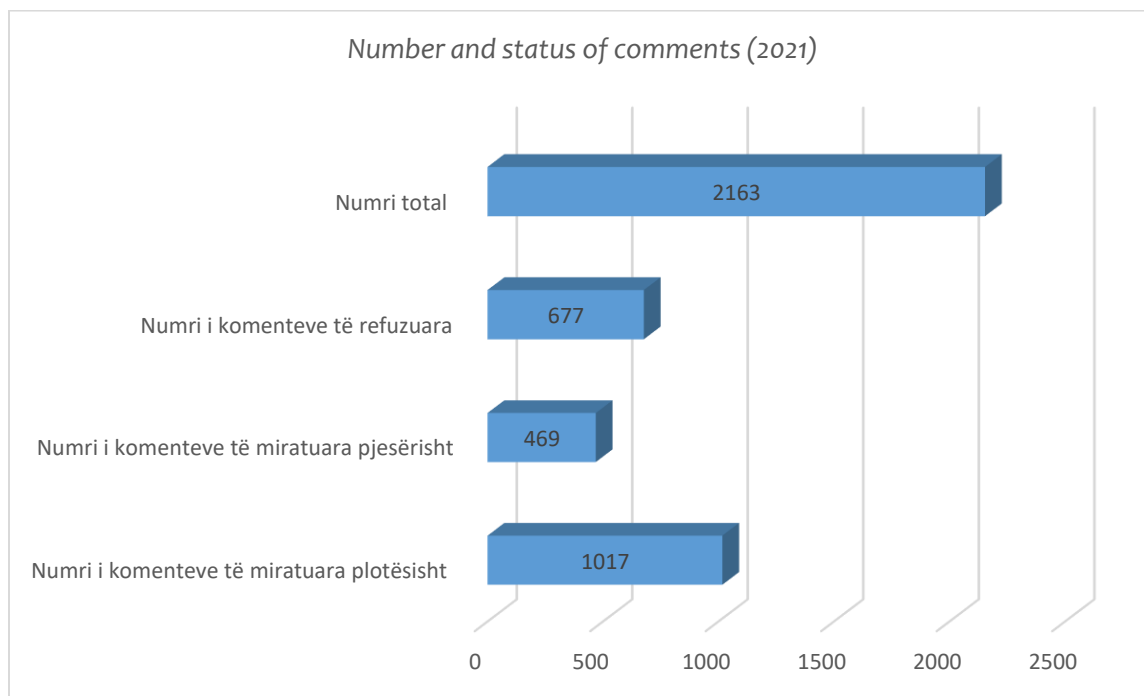

Figure 5: Number and status of comments (2021)

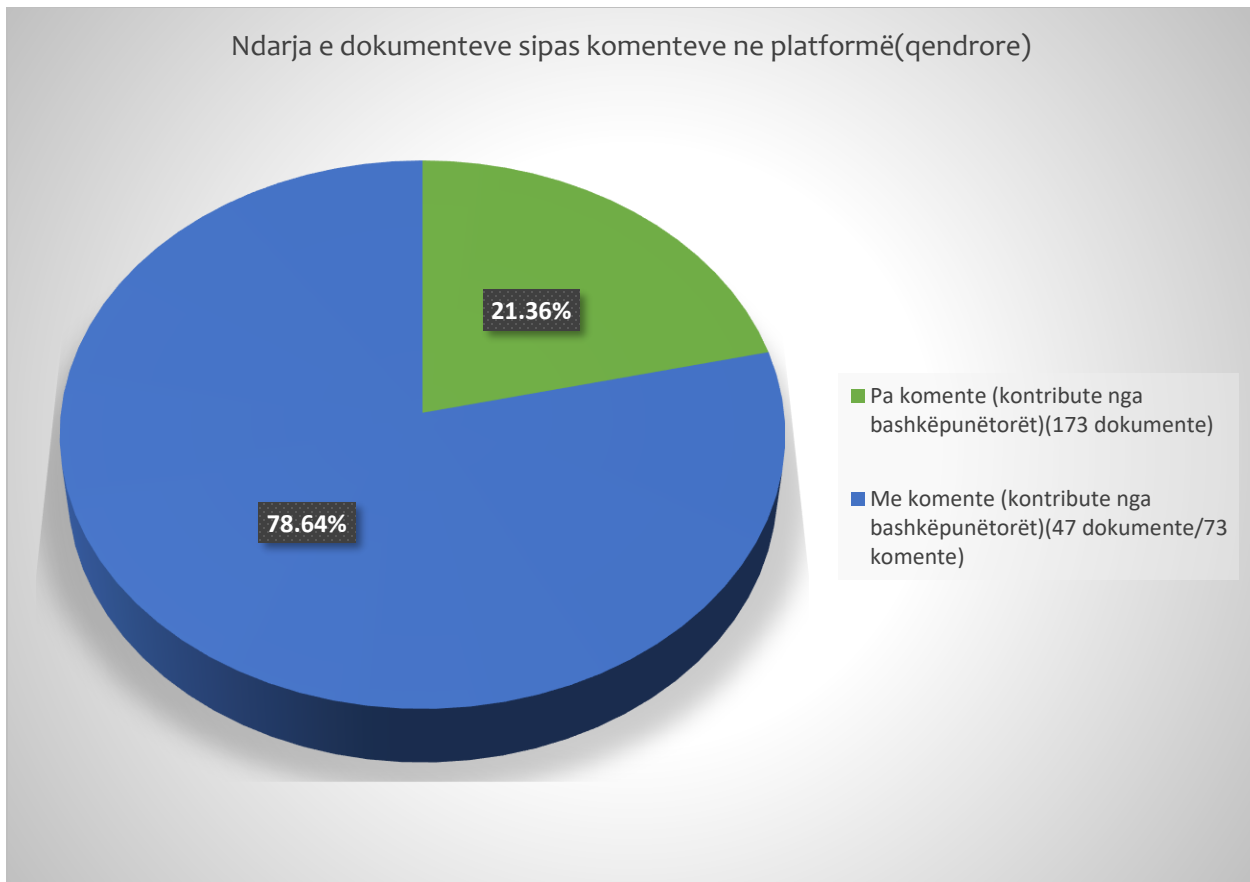

Figure 7: Division of documents according to the comments on the platform

It is estimated that 1017 comments were fully accepted by the drafters of the documents, 469 comments were partially accepted and 677 comments were rejected or not accepted by the drafting institutions. Whereas, the number of comments that we have received directly on the platform during 2021 is 73, so out of a total of 220 documents that have been published on the platform by the public and CSOs there are 73 comments directly placed on the platform. Of these, 47 documents have been commented, with a total of 73 comments, while only from July to December 2021 there are 33 documents that have been commented and which have 54 comments.

Many of the comments on the platform are provided through attachments which in a document contain a greater number of comments than those automatically generated in the statistics section. While the number of comments calculated in this report is based on official information provided by the coordinators of public consultations in the ministry (figure 7).

Number of comments according to the official reports provided by the coordinators of public consultations in the ministry is presented in detail in the table below.

Table 3: Summary of types of documents published according to the activity of collaborators - 01.01.2021-31.12.2021

Summary of types of documents published according to the activity of collaborators - 01.01.2021-31.12.2021

Institution	With comments (contributions from collaborators)	No comments (contributions from collaborators)	Totak	
Office of the Prime Minister	0	9	9	0.00%

Total	47	173	220	
In percentage	21.36%	78.64%		

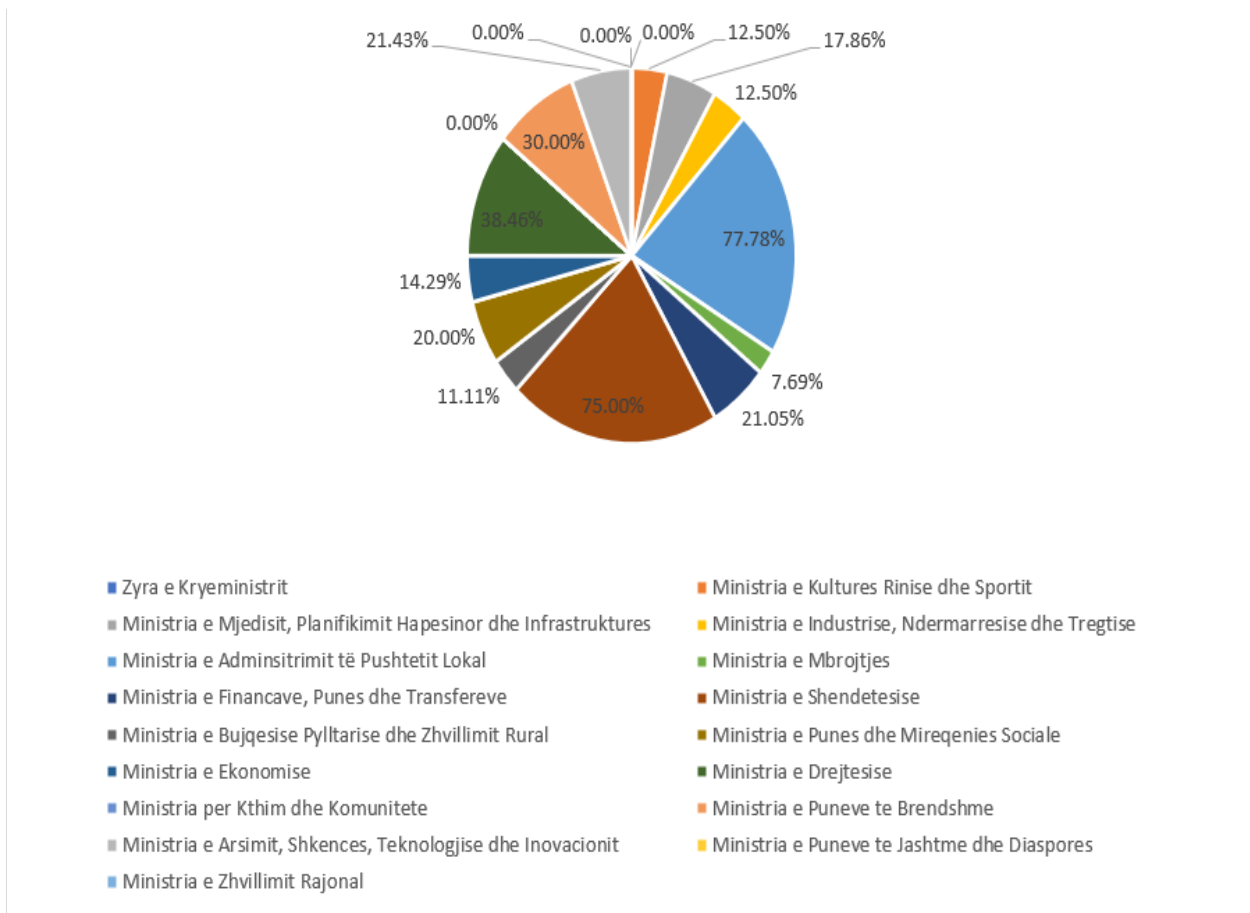

Figure 8: Comments according to ministries

The graph above reflects the comparative information according to ministries on the number of documents consulted and the number of comments. It is worth noting that public participation in the consultation process according to the data varies from ministry to ministry.

The volume of activities of the ministries for the consultation process during 2021 definitely differs from the previous year. Given the time of the pandemic and the inability to hold meetings and workshops with CSOs and the public, the main goal of the institutions has been to inform as much as possible the public and CSOs during 2021 about the documents that are drafted and for them to be included in the process of their drafting and consultation. Always to ensure the increase of the number of documents that meet the standards and the improvement of the quality of consultations.

Quality of consultation-Even this year the methodology used to draft this report and the resources allocated does not provide from a qualitative point of view the opportunity to make the assessment of meeting the standards. However, according to the information provided through the reporting, and those published, we can single out some good examples of ministries that have published and consulted documents on the platform during 2021 according to the standards of the regulation: Ministry of Defense, MESP, MLGA, MAFRD, etc.

11. Summary for the consultation process during 2021

Office of Good Governance / Office of the Prime Minister to improve openness and the transparency of institutions to the public and increase the accountability of institutions is being supported by the public consultation coordinators in the Office of the Prime Minister, those in the Line Ministries to continue with the coordinators at the local level.

Office for Good Governance in the Office of the Prime Minister, together with the ministries and the Municipalities, has managed to publish and share with NGOs and the public the documents that have been drafted and forwarded to the government for approval on the online platform <https://konsultimet.rks-gov.net/>. Thus, the public and NGOs have been provided access to inclusion, information and opportunities to contribute through commenting and recommendations on policies and legislation drafted by public institutions. Together with the OGG/OPM coordinators they have continued to provide with their maximum capacity space for the public to be involved in the public consultation process.

What has helped this process even more is the support of the office by TACSO project during 2021 in the process of updating the online platform. As a result of this expertise, the modalities in the consultation platform have been advanced and through this platform, website and social networks, the Office of Good Governance has developed and continues to develop an information campaign for the Online Platform for Public Consultation and Minimum Standards for citizen involvement in policy making and decision making. In addition, the Office for Good Governance/Office of the Prime Minister, as coordinator of the public consultation process in cooperation with all line ministries through the coordinators for consultations in the ministries involved in the policy and legislation development process, has worked on monitoring and implementing standards for public consultation.

In accordance with Regulation no. 05/2016 on Minimum Standards for Public Consultation, Office of Good Governance/Office of the Prime Minister leads and is presponsible for drafting the Annual Report on Public Consultations developed by all ministries and Office of the Prime Minister. Nin accordance with the requirements of the Regulation, Office for Good Governance / Office of the Prime Minister, in cooperation with all ministries and other institutions involved in the process of developing policies and legislation for the fifth year in a row has prepared the annual reports on public consultation.

Annual report for the year 2021 includes all documents that have been published on the platform for public consultation and for which the consultation started on 01.01.2021 and was closed on 31.12.2021. The report aims to present the work done during 2021 in the implementation of minimum standards for the public consultation process by the Government and the line ministries.

The report presents details and statistics for meeting all standards from the planning, initiation and process of drafting documents, consultation flow, drafting consultation documents, use of

consultation methods including the platform, public participation in providing their contributions, status of comments etc.

So, the report presents in detail the categories of information on what is the total number of documents drafted and consulted, what was the number of Comments directly on the online platform and during the drafting of documents, which method was used by the institutions in the consultation process, etc. This report also outlines the challenges and some recommendations for institutions to improve the process. What we need to have in mind is to insist that documents submitted for approval to the government should not be approved if they have not met the minimum criteria for public consultation. Thus, the Legal Office, Office for Strategic Planning and the Government Coordination Secretariat should not allow the documents to be approved by the government without going through the consultation stages and without having the accompanying documents according to the regulation. Offices within the Office of the Prime Minister (LO, GCS and SPO) should assume the responsibility they have with the regulation on minimum standards for not allowing the approval of documents in the Government if the documents do not meet the minimum standards for consultation. The Office for Good Governance within the Office of the Prime Minister should be involved and necessarily be the part of the process of procedural control for not allowing the approval of documents in the government without going through the process of public consultation. A full strengthening and coordination and sharing of information between the Offices in the Office of the Prime Minister in the preliminary control of documents before being forwarded to the government for their approval.

11. Challenges of 2021 and recommendations

There are always challenges in the process along the way, starting from the technical ones to not meeting the institutional obligations for their implementation. A challenge that should be mentioned in the implementation of the regulation and meeting the institutional obligations is the non-reporting and timely publication of final reports on the flow of public consultations for a document which has been published on the platform. This is because the regulation does not set a deadline for the publication of the report. Not to stop here, the other challenge during the process is also the non-involvement of organizations and the public through direct commentary on the platform for published documents.

Challenges that have been identified during 2021:

- Movements of staff and coordinators from one ministry to another
- Lack of institutional coordination within the ministry and support for coordinators
- Restructuring of the number of ministries and coordinators in the ministry.

Developments in the process of public consultations in recent years are a much appreciated progress in improving the standards for policy making and drafting of legislation in the Government of the Republic of Kosovo.

To create an even more sustainable and long-lasting system in involving civil society and the public in policy-making and legislation the following steps should be taken for this purpose:

- Increased engagement of work with the management of the ministries but also with the other staff responsible for the development of consultations to increase their understanding of the importance of implementing the quality of minimum standards for public consultations.
- Continuation of activities for capacity building of ministries and information on the system and rules of public consultations.
- Offices within the Office of the Prime Minister should assume the responsibility they have with the regulation on minimum standards for not allowing their approval in the Government if the documents do not meet the minimum standards.
- Process of public consultation, challenges and problems should be regularly discussed in the Meetings of the Secretaries General.

The aim of the Office of the Prime Minister / Office for Good Governance is and remains to work together with ministries and municipalities in order to improve the public consultation process, by ensuring more transparency in decision-making and policy-making.

Finally, with the full commitment of all stakeholders, the environment for the inclusion of civil society in Kosovo can be even more conducive.

ANNEX I: List of documents consulted during 2021

ANNEX II: List of documents published according to the platform registry from 01.01.2021-31.12.2021

LIST OF DOCUMENTS CONSULTED DURING 2021

	CONSULTATION	MEETING THE STANDARDS
I.	OFFICE OF THE PRIME MINISTER
